The nation's premier chipping potato state

Of the 2 billion pounds of potatoes grown in Michigan each year, 70% of them supply the U.S. potato chip industry, making Michigan the top producer of chipping potatoes in the country. One out of every four bags of potato chips produced in the U.S. is filled with Michigan-grown potatoes. Chip makers all over the United States and beyond rely on our high-quality, great tasting chip potatoes.

Michigan's commercial chip potato growers are ready to serve you.
